Murtha Statement on Walnut Hill ramps

Uniontown, PA - U.S. Rep. John Murtha issued the following statement today regarding the completion of the Walnut Hill interchange:

"I appreciate this opportunity to congratulate PennDOT for a job well done in completing this important project. With so much development in South Union Township, the need for this project was growing rapidly. So when the South Union supervisors told me about their concern that this project might get pushed back in the schedule, I joined them in asking PennDOT to keep the project high on their priority list. I certainly appreciate the cooperative attitude of our transportation officials and the willingness of everyone to work together on this essential project, which addresses some critical mobility issues that will certainly improve the economic prospects for this area. Thanks and congratulations again to everyone involved."
